By Alan L. Gillen

Master Books. Paperback. Book Condition: New. Paperback. 160 pages. Dimensions: 10.8in. x 8.4in. x 0.5in. Body by Design defines the basic anatomy and physiology in each of 11 body systems from a creational viewpoint. Every chapter explores the wonder, beauty, and creation of the human body, giving evidence for creation, while exposing faulty evolutionistic reasoning. Special explorations into each body system look closely at disease aspects, current events, and discoveries, while profiling the classic and contemporary scientists and physicians who have made remarkable breakthrough in studies of the different areas of the human body. Body by Design is an ideal textbook for Christians high school or college students. It utilizes tables, graphs, focus sections, diagrams, and illustrations to provide clear examples and explanations of the ideas presented. Questions at the end of each chapter challenge the student to think through the evidence presented. Dr. Alan Gillen is a biologist and zoologist with a doctorate in Science Education. Having taught biology for two decades at all grade levels, Dr. Gillen is presently a Professor of Biology at Liberty University. 176 pages Paperback and middot; 8 12 X 11 Alan Gillen, Ph.
