Paladin Press,U.S. Paperback. Book Condition: new. BRAND NEW, Beyond Expert: Tripling Military Shooting Skills, John Buol, The Department of Defense spends millions on ammunition and facilities, but motivated teenagers on top junior shooting teams can often outshoot military-trained snipers and special-operations personnel. This doesn't mean soldiers can't shoot, only that many levels of skill beyond qualification are possible. Military marksmanship traces its roots back to competition-shooting programs. The ratings on skill badges retain the same names as classifications; however, the skills have diverged greatly. As warfighting has become ever more complex, some base skills, like marksmanship, have declined. In this book, three-time All-Army Champion, distinguished marksman with both rifle and pistol, and small-arms instructor Sergeant First Class John M. Buol Jr. proves that with thoughtful practice even a shooter—military or civilian—qualifying as "expert" can develop a threefold increase in shooting skill. The training is simple, requiring a minimum outlay of equipment, expense, and time, but the results are staggering. Not hyperbole or a careless boast, these methods will teach you how to precisely measure marksmanship ability and develop a 300-percent jump in skill. Beyond "Expert": Tripling Military Shooting Skills will help maximize your skills in any marksmanship endeavor and allow you to triple your weapon skills beyond "expert" qualification.
