Let's Review Physics (Let's Review Series)

By Lazar, Miriam

Barron's Educational Series, 2012. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: This detailed manual reviews all topics covered in the New York State high school curriculum for physics and prepares students to pass the Regents Physics Exam. Topics covered include a general introduction, motion in one dimension, forces and Newton's laws, vector quantities and their applications, circular motion and gravitation, momentum and its conservation, work and energy, the properties of matter, static electricity, electric current and circuits, magnetism and electromagnetism, waves and sound, light and geometric optics, solid-state physics, modern physics from Planck's hypothesis to Einstein's special theory of relativity, and nuclear energy. One recently-given actual Regents Physics Exam is also presented with an answer key.

Reviews

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that I am sure that I will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Brennan Koelpin**

Comprehensive guide! Its this type of very good read through. It is actually written in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.
