Journal of the Federated Institutes of Brewing Volume 2

By Federated Institutes of Brewing

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1896 edition. Excerpt: .higher the apparent diastatic power. In order that the test may be carried out at a constant temperature in winter and summer, and since it is easier to heat water than to cool it, these chemists suggest that the 10 test-tubes containing the starch conversions should be placed in a water bath for an hour at a constant temperature of 70 F. (21 C). After the 10 test-tubes containing the malt extract and soluble starch have remained for exactly an hour 5 c.c. of Fehling s solution are added to each, the tubes again shaken, and the whole series placed in a boiling-water bath for 10 minutes. On examination, some of the tubes will be found to be over-reduced, as shown by their yellow colour, and others under-reduced, as shown by their blue colour. The two consecutive tubes--one of which is slightly over-reduced and...
